

Create IAM Users with EC2 Access

23 Steps [View most recent version on Tango.ai](#) 

Created by	Creation Date	Last Updated
Shannon Posey	Dec 12, 2025	Dec 12, 2025

STEP 1

Click on IAM

STEP 2

Click on Users

STEP 3

Click on Create user

STEP 4

Click on User name

The screenshot shows the AWS IAM 'Create user' console. On the left, a sidebar lists the steps: Step 1: Specify user details (selected), Step 2: Set permissions, and Step 3: Review and create. The main content area is titled 'Specify user details' and contains a 'User details' section. Within this section, the 'User name' field is highlighted with an orange border. Below the field, a note states: 'The user name can have up to 64 characters. Valid characters: A-Z, a-z, 0-9, and + = , . @ _ - (hyphen)'. There is also an optional checkbox for 'Provide user access to the AWS Management Console - optional' with a 'Learn more' link.

STEP 5

Type "Testuser1"

This screenshot is identical to the previous one, but the 'User name' field now contains the text 'Testuser1'. The orange highlight remains on the field. The rest of the interface, including the sidebar and the optional checkbox, is unchanged.

STEP 6

Click on Next

ess

on Keyspaces, you can generate them after you create this IAM user.

Cancel Next

STEP 7

Check on

User groups (1/2)

🔍 Search

☐ Group name ↗

☐ Admin

☒ IT-Dep

► Set permissions boundary - *opti*

STEP 8

Click on Next

A screenshot of a date selection interface. At the top, there is a date range "2025-01-21 (10 months ago)" and a selected date "2025-12-01 (11 days ago)" highlighted in a light blue box. Below this, there are three buttons: "Cancel", "Previous", and "Next". The "Next" button is highlighted with an orange border. A vertical scrollbar is visible on the right side of the interface.

STEP 9

Click on Create user

A screenshot of a user creation interface. At the top, there is a text label "ant to associate with this user." Below this, there are three buttons: "Cancel", "Previous", and "Create user". The "Create user" button is highlighted with an orange border. A vertical scrollbar is visible on the right side of the interface.

STEP 10

Click on Testuser1

◀

STEP 11

Click on Add permissions

A screenshot of the Google Drive interface showing a file named 'Screenshot 2023-09-27 15.00.00.png'. The file is highlighted in blue. Below the file name, there are three buttons: a circular refresh icon, a 'Remove' button, and an 'Add permissions' button. The 'Add permissions' button is highlighted with a red rectangle. Below the buttons, there is a search bar with a dropdown arrow, a page indicator showing '< 1 >' and a settings gear icon, and a status bar showing 'Attached via' with an external link icon.

STEP 12

Click on Add permissions

STEP 13

Select Attach policies directly

STEP 14

Type "EC2"

Step 1

Add permissions

Step 2

Review

Add permissions

Add user to an existing group or create a new one. Using groups is a best-practice way to manage user's permissions by job functions. [Learn more](#)

Permissions options

☐ Add user to group

Add user to an existing group, or create a new group. We recommend using groups to manage user permissions by job function.

☐ Copy permissions

Copy all group memberships, attached managed policies, inline policies, and any existing permissions boundaries from an existing user.

Permissions policies (1445)

STEP 16

Click on Next

A screenshot of a form interface. The form has several horizontal input fields. At the bottom right, there are two buttons: a blue 'Cancel' button and an orange 'Next' button. The 'Next' button is highlighted with a red border. At the bottom of the form, there is a dark footer bar with white text: 'Web Services, Inc. or its affiliates.', 'Privacy', 'Terms', and 'Cookie preferences'.

STEP 17

Click on Add permissions

A screenshot of a form interface. At the top right, there is a navigation bar with '< 1 >'. Below this, there is a section titled 'Used as' with a subtitle 'Permissions policy'. At the bottom right, there are three buttons: a blue 'Cancel' button, a blue 'Previous' button, and an orange 'Add permissions' button. The 'Add permissions' button is highlighted with a red border.

STEP 18

Click on Security credentials

Summary

STEP 19

Click on Enable console access

Enable console access

Remove

Resync

Assign MFA device

User can have a maximum of 8 MFA devices assigned. [Learn more](#) ↗

STEP 20

Select Custom password

arn:aws:iam::503561452741:user/Testuser1 Disabled

Enable console access

Enable console access for Testuser1.

Console password

☐ Autogenerated password

☒ Custom password

.....

- Must be at least 8 characters long
- Must include at least one uppercase letter (A-Z)
- Must include at least one lowercase letter (a-z)
- Must include at least one number (0-9)
- Must include at least one non-alphanumeric character (!@#\$%^&*()_+-=[]{}|;:,.<)

STEP 21

Paste input

Enable console access

Enable console access for Testuser1.

Console password

☐ Autogenerated password

☒ Custom password

.....

- Must be at least 8 characters long
- Must include at least one uppercase letter (A-Z)
- Must include at least one lowercase letter (a-z)
- Must include at least one number (0-9)
- Must include at least one non-alphanumeric character (!@#\$%^&*()_+-=[]{}|;:,.<)

☐ Show password

☐ User must create new password at next sign-in

Cancel Enable console access

STEP 22

Click on Enable console access

The screenshot shows the 'Enable console access' dialog box in the AWS IAM console. The dialog box is white with a light gray border and contains the following text:

- be at least 8 characters long
- nclude at least one uppercase letter (A-Z)
- nclude at least one lowercase letter (a-z)
- nclude at least one number (0-9)
- nclude at least one non-alphanumeric character (! @ # \$ % ^ & * () _ + - = [] { } |

Below the list, there is a section for 'password' and a note: 'create new password at next sign-in'. At the bottom of the dialog box, there are two buttons: 'Cancel' (blue outline) and 'Enable console access' (orange solid). The background of the screenshot shows the AWS IAM console interface with a dark gray header and a list of users. A button labeled 'Assign MFA device' is visible in the background.

STEP 23

Click on Close

The screenshot shows the 'Close' dialog box in the AWS IAM console. The dialog box is white with a light gray border and contains the following text:

regator.signin.aws.amazon.com/console

Below the text, there are two buttons: 'Download .csv file' (blue outline) and 'Close' (orange solid). The background of the screenshot shows the AWS IAM console interface with a dark gray header and a list of users. A button labeled 'Assign MFA device' is visible in the background.
